

RALLY POINT AUSTRALIA

Regroup. Recover. Move forward.

Toowoomba & the Darling Downs, Queensland

One local door into the support veterans, serving ADF members, first responders and families need — without having to know the system first.

— WHAT RALLY POINT DOES

Rally Point Australia is a local navigation and referral service for the Toowoomba and Darling Downs region. You don't need a diagnosis, a service category or a completed form — you come with a problem, and Rally Point helps identify the need, navigate the systems involved, and connect you with the right professional or service.

— WHO IT'S FOR

- Australian Defence Force veterans
- Currently serving ADF members
- First responders — police, ambulance, fire
- Partners, spouses, carers and family members
- People transitioning from service, and families relocating to the Darling Downs

— WHAT IT IS NOT

Rally Point does not replace emergency services, medical practitioners, psychologists, psychiatrists, allied-health professionals, legal practitioners or accredited claims/advocacy services. It improves access and coordination, and connects you with those qualified professionals directly.

— HOW TO REFER SOMEONE

- Contact Rally Point directly to discuss a referral — a warm handover, not a form-first process
- With consent, Rally Point will make contact, understand the situation, and coordinate the next step
- Follow-up continues until the person is genuinely connected with support, not just referred
